RE: Pre-rule Horizontal Well Site Construction

To whom it may concern:

The new Horizontal Well Site Construction Rules (OAC 1501:9-2-01, 1501:9-2-02, 1501:9-12-01) are anticipated to be effective on July 16, 2015. The Division of Oil and Gas Resources Management (DOGRM) is in the process of finalizing the establishment of pre-rule horizontal well sites. The establishment of pre-rule horizontal well sites will be instrumental in determining construction that may be regulated by the Horizontal Well Site Construction Rule. In addition, this information will further the effort by the DOGRM to obtain current information for emergency situations for pre-rule horizontal well sites.

Please fill in the provided spreadsheet to document all horizontal well sites that DOGRM approval was received and construction commenced prior to the effective date of the Horizontal Well Site Construction Rules. Please provide all relevant documentation of these horizontal well sites to DOGRM on DVD disk at:

2207 Reiser Ave. SE

New Philadelphia, OH 44663

Do not submit pre-rule horizontal well sites to the ODNR FTP site.

Filing the most complete construction documents with DOGRM should be completed at this time for all pre-rule horizontal well sites. Record drawings, as-built drawings, or proposed construction documents are preferred by DOGRM. Any available information will be accepted.

Please provide the requested information as soon as possible, but no later than July 31, 2015. If an extension of this date is needed, please request this with the DOGRM.

Sincerely,

A handwritten signature in black ink, reading "Jason Simmerman", is written over a light blue horizontal line.

Jason Simmerman

Division of Oil & Gas Resource Management
